Liberaly apply the supplied Loctite sealant to the inside surface and on top of each hole **on one side of vehicle.**

4 ASSEMBLE PIVOT BRACKET TO RUGGEDLINE

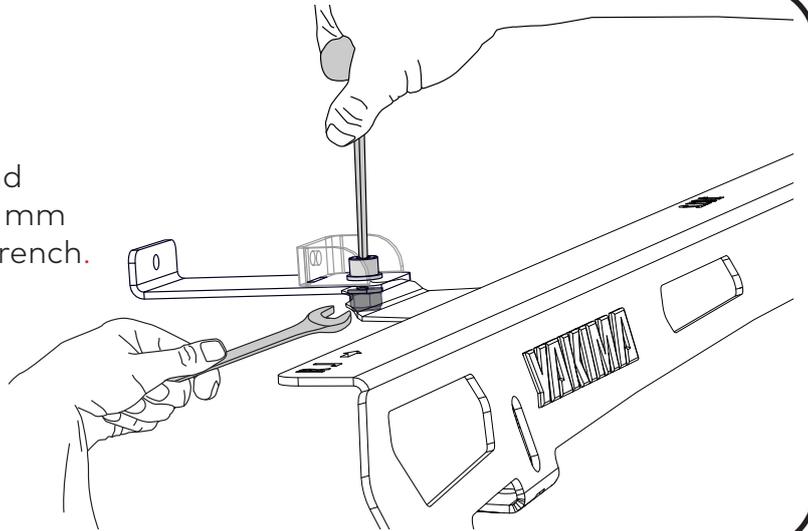

Assemble Pivot Bracket and M8 hardware as pictured. Complete this for the 2 mounting holes on top of the RuggedLine Spine.

5**SECURE PIVOT BRACKET ASSEMBLIES**

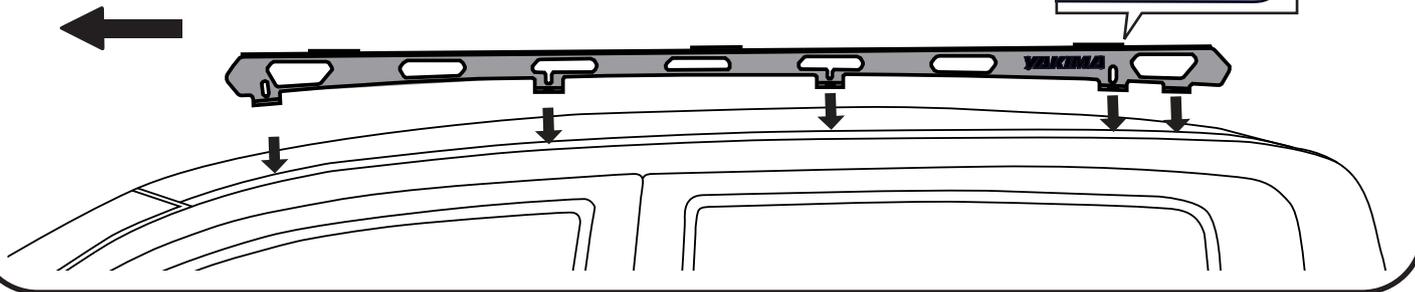

Tighten all Capscrews with the provided 6 mm T Handle Ball End Allen Key, and all Nuts with a 13 mm Spanner or a suitable Torque Wrench.

Ensure all Capscrews and Nuts are tightened to 7 Nm.

**6****POSITION RUGGEDLINE ON VEHICLE ROOF**

Referring to the left-right orientation on top of each Spine, carefully place one side of the RuggedLine onto vehicle roof as shown. Line up the mounting holes on the bottom tabs to those exposed on the roof. The tabs are to face in towards the vehicle.
