

# Fitting Guide

## RUGGEDLINE FLAT INSTALLATION

This guide will assist you to determine the correct platform or crossbar sizing when installing RuggedLine® Flat 1200 mm (9812172) on a canopy, trade body, ute tub, hard lid or roller cover using pre-fitted tracks and, if required, what track size to order.

### A. Installing tracks on your vehicle

If you already have pre-fitted tracks, skip to "B. Installing to pre-fitted tracks". If not, we've got you covered! The following Yakima tracks are compatible with RuggedLine Flat 1200 mm:

- LockNLoad Universal Track Kit 800 mm (Part #8000360)
- LockNLoad Universal Track Kit 1000 mm (Part #8000361)

Installing tracks requires drilling into your vehicle and because the varied nature of the installs, we are unable to provide exact drilling instructions. The information in the following section should help with track placement. However, it is up to the installer to determine the exact location of track and roof rack placements on the vehicle.

Ensure RuggedLine Flat is installed onto a flat surface.

### B. Installing to pre-fitted tracks

Before installing RuggedLine® Flat to an existing track, check the following:

#### 1. Is the track size and position suitable?

The track must not be on an angle and needs to be on a relatively flat surface. The track channel must also be the correct size to fit and hold the track nut. If the track nut does not fit or the channel is too wide, RuggedLine® should not be fitted.

#### 2. What size bars or platform will you need?

Find your track width in the table below, followed by recommended bar and platform sizes.

#### MEASURING TRACK WIDTH

Measure from the opening slot of one track to the next – if tracks are not parallel, measure at widest part

Track Width	Recommended Platform	Recommended Crossbar
1000 - 1200 mm	Platform A 1240 W (9820337)	TrimHD 1250 mm (8000516)
1200 - 1340 mm	Platform B 1380 W (9820338)	TrimHD 1375 mm (8000517)
1340 - 1445 mm	Platform S 1485 W (9820378)	TrimHD 1500 mm (8000518)
1445 - 1530 mm	Platform G 1570 W (9820343)	TrimHD 1650 mm (8000519)
1530 - 1610 mm	Platform I 1650 W (9820345)	TrimHD 1650mm (8000519)
